

ASSEMBLY CEMENT DRYING UNIT

MODEL : RDS-5SS

FEATURES :

- ◆ Single side designed, more delivered combing ways and more space available, most comfortable system for NOS/LEAN project.
- ◆ Movable and combing unit design can fast change production layout.
- ◆ The upper layer for outsole transferring, the lower layer for lasted shoe transferring, this principle could release the tire from the operator and improve work efficiency.
- ◆ Special design can adjust the self-balancing shoe holder, suitable for any size shoes and easy for changing, and also meet the NIR heating structure design.
- ◆ Optional computer control system, accurately control the temperature and provide the needed data.
- ◆ Environment friendly system with adsorbing device.
- ◆ Short drying time by NIR heating system.
- ◆ Sole attaching with fast conveyor belt, make the shoes quickly deliver to the pressing and improve product quality.
- ◆ Cost, power, last saving and time shortening.
