

AUTOMATIC ROTATING STEAMING AND HEATING PREFORMING MACHINE

MODEL : CF-9012

SPECIFICATION

- Detecting Area : 25 x 50mm
- Detecting Method : Magnetic induction
- Sensitivity adjustment : Fe ϕ 0.8mm
- Alarm method : Buzzers. Lamp lights
- Dimension : 196 x 58 x 50mm
- Weight : 212g

FEATURE

- ▶ Small detecting scope for accurately finding the broken needle.
- ▶ Two-grade sensitivity for detecting different kinds of clothes.
- ▶ Humming and indicator light for alarming.
- ▶ Highly sensitive and long-used sensor thanks to strong magnetic materials.
