

UPPER PREFORMING & STEAMING MACHINE

MODEL : CF-TPS4

SPECIFICATION

- Station : 4
- Preheater : 4
- Heater : 4.8KW
- Max Power : 5.4Kw
- Dimension : 1,770 x 730 x 1,690mm
- Weight : 400g

FEATURE

► A stroke-adjustable cylinder is built into each station with a steaming and fine shape-forming mold. The steaming and fine shape-forming mold is designed for quick-release. The shape of mold is same as the last and built with steam pipe and heater. It can create excellent steaming and shape-forming effects.
